

WorldCard Color (Win)

Desktop business card scanner

Product Overview

WorldCard Color is a solid A6-sized color business card scanner that recognizes and preserves color images of the business cards. It can also be used just as an ordinary color scanner to scan 4x6 color photos, baseball cards, game cards and other sports cards. The ergonomic design makes scanning very easy. WorldCard Color offers extraordinary performance for the price.

Software Features

Scan business cards and photos

The A6-sized color business card scanner scans and reorganizes the information of the color business card. It can also be used to scan 4x6 color photos

Digitize business cards in seconds

Recognize business cards in 24 different languages: English, French, German, Italian, Spanish, Portuguese, etc. Let you effectively manage and search all of your contacts.

Save contact in Cloud
